Revol CRM+ Provide your people with the tools and information they need to create a 360 degree view of customers, using a highly flexible customer relationship management solution that can adapt, grow, and scale with your business. Built on a highly flexible platform, Revol CRM business software provides a solution that is easy to adapt as your business changes. Achieve rapid return on investment and help keep costs down with efficient manageability and the ability to choose On - demand, on - premise, or to move between these deployment options. Provide enterprise level performance and scale to support the needs of local business groups up to the largest global enterprises.

Revol CRM helps enterprise organizations to:

- Attain a 360-degree view of customers
- Achieve reliable user adoption
- Adapt quickly to business change
- Accelerate project delivery and returns

Revol ERP Overview

REVOL ERP is a front and back office integration solution which streamline the entire back office operations. REVOL ERP components are tightly integrated, giving you access to real-time business intelligence to make better decisions. Orders can be filled and tracked more quickly and easily, with inventory levels updated in real time. And with full visibility into inventory by sales reps for order promising and by planners for purchasing, companies can lower inventory levels, analyze inventory costs and collaborate with vendors more effectively.

Revol ERP delivers the proven, comprehensive financial management capabilities required to grow a changing, complex business. Revol ERP takes your business beyond traditional accounting software by streamlining operations across your entire organization and providing you with the real-time visibility you need to make better, faster decisions.
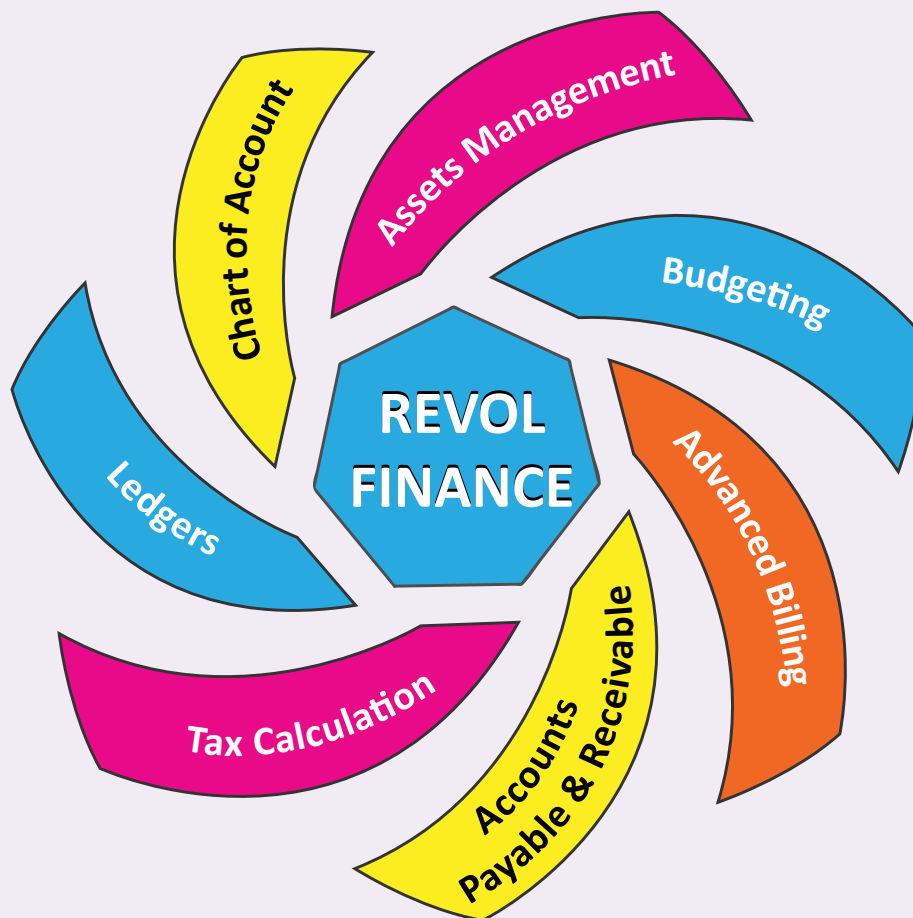

Key Benefits

• Accelerate the order-to cash process by 50%+

• Slash financial close by over 50%

• Drive better, faster decision-making with real-time data and reporting, and personalized dashboards

Revol Finance Overview

REVOL Finance is a cost-effective, easy-to-use accounting solution for small and medium-sized businesses. It is a complete accounting of all finance and related transaction and generation online balance-sheet, division-wise, cost-center-wise as well as consolidated for group companies. It's designed to help you become more productive and to effectively integrate all financial and accounting requirements in your organization.

Chart of Account · Assets Management · Budgeting · REVOL FINANCE · Advanced Billing · Ledgers · Tax Calculation · Accounts Payable & Receivable

Revol Finance Benefits:

- Helps you ensure regulatory compliance and expand your business across geographies

- Helps you improve the efficiency of your financial operations and enable strategic planning

- Helps you manage your cash flow effectively

- Provides greater insight into your finances and improves your ability to make the right decisions

- Revol Financial Management gives you the power to perform fast and reliable accounting, financial reporting and analysis. You can extend access to your financial data across your company and business community, so that you can improve the efficiency of your existing accounting processes

KEY BENEFITS

Increase Customer Satisfaction

Support teams can access customer information anytime, anywhere to drive customer satisfaction and retention.

Increase Efficiency and Productivity

Accelerate case resolution time by providing support reps with complete customer visibility with appropriate case assignments.

Reduce Costs with Effective Self-Service

Deliver a high-quality, high-touch experience for customers while reducing the cost of customer care with a robust knowledge base in a customer portal.

Drive Incremental Revenue

Empower sales, service and support reps to upsell and cross-sell better with complete access to cross-functional customer data.

KEY BENEFITS

Effective Multi-channel Campaign Management

Streamline execution of marketing campaigns across multiple channels, including website, email, events and social media.

Improve Sales Collaboration

Align marketing and sales goals to improve collaboration by quickly converting leads into customers.

Shorten Sales Cycle

Deliver highly relevant content to prospects at the right time guiding them through the buying cycle.

Gain Real-Time Visibility

Gain insight into campaign performance and ROI with analytics.

Expertise & Supports

Expertise

Work with Revol Team with decades of experience in various industries. Revol Team can examine your existing workflow and business processes, identifies opportunities for improvement and builds the roadmap to optimize your lab's productivity and operating cost.

Implementation

Customize the Business Suite you want in weeks and get implemented in a month time rather than in months or in years. Revol Business Suite is easy to configure and fine-tune to your terminology and process. User friendly menus and tables make it possible to quickly launch your system into production.
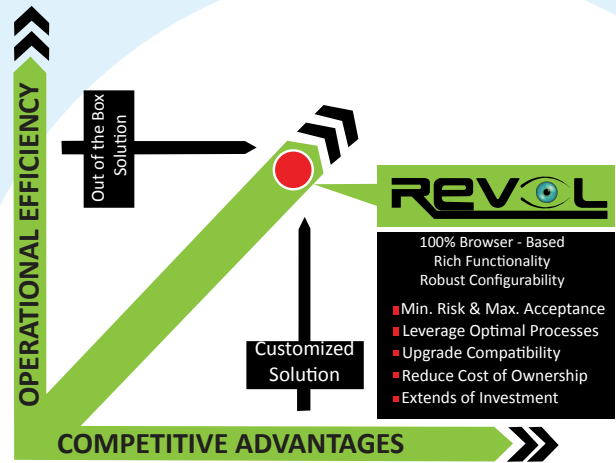

Validation Support

Validation-ready implementation. The existing rich functionality and feature set reduces the time needed to configure, test, and deploy the system. Little to no custom code needs to be developed for standard implementation.

This lowers the overall project timeline and dramatically reduces the validation requirements.

Customer Support

Offers a comprehensive support program to make sure Customers keep getting the results they want, including:

• 24/7 Online Support website

• Phone support through local offices during regular business hours

• Emergency response time of within one working hour, during regular support hours

• Software installation support

• Software Upgrade support
